

The RIO Club supports Melanie Kindness and her chosen charity

The door prize draw winner of the 2016 St Andrews Burns Supper in January, Melanie Kindness, who works at the British Embassy and true to her name, donated 14 million IDR to her selected charity, Flc-Bijisesawi.

The Burns Supper was sponsored as usual by The RIO Club, whose chairman commented that "it is encouraging in this day that Melanie very generously donated all her award to her selected charity, Bijisesawi".

William Gray, founder and executive chairman of the RIO CLUB, accompanied Melanie and her husband on a visit to the charity on Thursday, 19th May, where they could see firsthand the work and help provided to the young children taken care of by the Charity. The personal visit brought home the vast amount of work being done by the dedicated charity founder, Ibu Maria.

It was a humbling experience to witness the children's stories of courage and hardship and we hope to continue supporting them in the future.

Full Life Community (Bijisesawi) includes hundreds of women and children who have built a partnership with other communities and individuals in order to help and empower vulnerable women and children.
